

## About GameChangers Foundation

GameChangers' Tree Farm is more than rows of thriving trees, it is a living extension of our ministry. Spread across our 150-acre campus near Lake Thurmond, the farm is home to over 16,000 trees, planted, nurtured, and maintained by men in our recovery program. Every tree represents more than growth in the soil, it symbolizes the growth taking place in the lives of the men who care for them.

Our farm specializes in producing strong, healthy trees for wholesale buyers, landscapers, and property developers across the region. With careful attention to quality, sustainability, and long-term success, each tree is cultivated with both professional standards and personal dedication.

## How Tree Sales Support Recovery

Every purchase from GameChangers Tree Farm directly fuels our Christ-centered mission of recovery and restoration. Tree sales help fund:

- Residential Care – providing men with safe housing, structure, and accountability as they walk through recovery.
- Vocational Training – equipping residents with practical skills in arboriculture, agriculture, construction, and other trades that prepare them for long-term success beyond our program.
- Spiritual & Emotional Healing – creating space for men to heal, grow, and rediscover purpose through the 12-step recovery process and Christian discipleship.

When you invest in our trees, you're not just enhancing landscapes, you're helping men rebuild their lives, reconnect with their families, and step into a future filled with hope.

## Why Choose GameChangers Trees?

- Quality You Can Trust – Healthy, well-rooted trees grown with expert care.
- Purpose Behind Every Tree – Your purchase supports a ministry that changes lives.
- Sustainable Impact – By partnering with us, you're investing in both the environment and the community.

### About Our Tree's

Our trees are grown with care and cultivated to thrive, ensuring strong, healthy stock for every landscape project. Availability for ordering begins mid-November, with digging season running from December 2025 through January 2026. Orders will be ready for pickup starting in January 2026.

We offer bulk order discounts for larger purchases, please contact us directly for details.

All orders must be placed via email at: [trees@gamechangersfoundationsc.org](mailto:trees@gamechangersfoundationsc.org)
